Design & Build for High-Tech Facilities

About Us

HEC Group, specializing in engineering design and project execution in Nano-Micron Electronics, Life Sciences and General Industries.

Service Fields

Service Scope

Planning

- Site Master Planning
- Feasibility Study
- Concept Design
- Sustainability Analysis
- Energy Efficiency Audit
- Industrial Engineering
- Equipment Evaluation

Engineering

- Basic/Detailed Engineering
- Space Management/BIM
- Design Review
- Value Engineering /Cost Optimization
- Tender Package

Procurement

- Sourcing
- Procurement
- Cost Estimate
- Cost Control
- Data Analysis

Construction

- EHS Management
- Planning/Scheduling
- QA/QC Management
- Construction/Installation
- Testing/Commissioning/ Start up/Certification

Hook-up

- Design
- Construction
- Certification

Global Presence

60+
Projects

15+
EPC Projects

6
Countries

★ Holding Headquarters: Singapore
Offices: China, Malaysia, Vietnam, Philippines
Project Footprint: China, Malaysia, USA, Saudi Arabia, Vietnam, Philippines

Selected Projects

Yixing 12" Semiconductor Wafer EPCM Project

Hohhot PV Ingot EPCM Project, China

Yinchuan PV Ingot EPCM Project, China

Tianjin Semiconductor Wafer EPC Project, China

Yinchuan PV Wafer EPC Project, China

PV Cell Fab Procurement & Technology Support, Philippines
